A SUDDEN TWINGE

Of pain is generally the first warning of an attack of rheumatism. It feels as if the disease were in the bones or muscles, but the real cause of rheumatism is found in impure blood. In order to cure rheumatism the blood must be cleansed of the poisonous impurities which are the cause of the disease.

Dr. Pierce's Golden Medical Discovery has been very successful in the cure of rheumatism, because it entirely cleanses the blood from the poisonous uric acid which is the cause of the disease.

"Your 'Golden Medical Discovery' cured me of rheumatism after I had tried a dozen remedies without relief and also gone West in search of health," writes Harry Kitter, of No. 1645 6th Street, Denver, Colo. "Only those who have suffered from this dread malady know the pain and misery I endured for over five years. Whenever the weather was damp or cold my troubles were increased and my joints would be so stiff and sore that I was hardly able to move about, and often unable to dress myself. I used a number of highly recommended medicines, but they had no effect whatever on me, and I came to Colorado hoping to regain my health, but failed to obtain the relief I had hoped for. A gentleman in the house where I lived advised me to use Dr. Pierce's Golden Medical Discovery, and in four months and a half after I began using it I was a well man, and have had no touch of it for the past seven months."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains; you lose. Therefore accept no substitute for "Golden Medical Discovery."

Pierce's Pleasant Pellets These tiny, sugar-coated anti-bilious granules regulate and invigorate Stomach, Liver and Bowels. Do not beget the "pill habit," but cure constipation. One or two each day for a laxative and regulator, three or four for an active cathartic. Once tried always in favor. Put up in vials: always fresh and reliable.

SOFTNESS OF SEALSKIN.

To Rivaled by Human Hair Where Dandruff is Eradicated.

Sealskin is admired the world over for its softness and glossiness; and yet the human hair is equally as soft and glossy when healthy; and the radical cause of all hair trouble is dandruff, which is caused by a pestiferous parasite that saps the vitality of the hair at its root. Newbro's Herpicide is the only preparation that is fatal to the dandruff germ. Without dandruff there is no falling hair, but a luxuriant growth of glossy, soft hair is certain. Scouring the scalp won't cure dandruff. Kill the dandruff germ. Thousands of women owe their beautiful suits of hair to Newbro's Herpicide. Sold by leading druggists. Send 10c. in stamps to The Herpicide Co., Detroit, Mich.

Don't Jump

to conclusions and think, because you have suffered so long from chronic PAIN, that it is incurable. Whether you call it rheumatism, neuralgia, backache, earache, toothache, headache, a sprain, indigestion or some internal trouble, of which you don't rightly know the nature, the surest and most reliable relief and cure is HAMLINS WIZARD OIL.

This medicine acts directly upon the nerves and blood vessels in such a way as to relieve inflammation, reduce swellings, and drive out the exact cause of trouble to which the pain is due. Price 50 cents and $1.00. Fully guaranteed.

BATTLE OF EUTAW SPRINGS.

The following extract is taken from memoirs of the War in the Southern Department of the United States, by Henry Lee, Lieutenant Colonel Commandant of the Partizan Legion: vol. 2, page 285. Published in Philadelphia in 1812. This book belongs to the library of James Monroe and is now in the possession of the Maryland Historical Society:

Greene determining to strike a conclusive blow, brought up the Marylanders and Virginians, when our line became dense, and pressing forward with a shout the battle raged with redoubled fury. The enemy, sensible that the weight of our force was bearing upon him, returned our shout, and sustained himself nobly from right to left. Majoribanks now for the first time was put in motion, which being perceived, Lieut. Col. Washington, with the reserve, was commanded to fall upon him, and at the same moment the line was ordered to hold up its fire and charge with bayonet. The air again resounded with the shouts of the advancing Americans; the enemy answered by pouring in a close and quickly repeated fire. As we drew near Lieutenant Colonel Lee, at the head of his infantry, discerning that he outstretched the enemy's line, ordered Captain Rudolph to fall back with his company to gain the enemy's flank and to give him a raking fire as soon as he turned it. This movement was executed with precision and had the happiest effect. The enemy's left could not sustain the approaching shock, assailed in front as it was in flank, and it instantly began to give way, which quickly afterwards took place along the whole line, in some parts of which the hostile ranks contended with the bayonet; many individuals of the Marylanders and of the Buffs having been mutually transfixed. The conquering troops pressed the advantage they had gained, pursuing the foe and possessed themselves of his camp, which was yielded without a struggle. Washington promptly advanced to execute the orders he had received and made a circuit to gain the rear of Majoribanks, preceded by Lieutenant Stuart with the leading section. As he drew near to the enemy, he found the ground thickly set with black jack, and almost impervious to horse. Deranging as was this unlooked for obstacle Washington with his dauntless cavalry forced his way, notwithstanding the murderous discharge of the enemy, safe behind his covert. Human courage could not surmount the obstruction which interposed, or this gallant officer with his intrepid corps would have triumphed. Captain Watts, second in command, fell, pierced with two balls. Lieutenants King and Simmons experienced a similar fate, and Washington's horse being killed, he became entangled in the fall, when struggling to extricate himself he was bayoneted and taken. Lieutenant Stuart was now dismounted, being severely wounded and his horse killed close to the hostile ranks; nor did a single man of his section escape, some being killed and the rest wounded. The gallant young Carlisle (Carlyle), from Alexandria, a cadet in the regiment, was killed and half the corps destroyed; after which the residue was drawn off by Captain Parsons, assisted by Lieutenant Gordon. This repulse took place at the time the British line gave way. Majoribanks, although victorious, fell back to cover his flying comrades.

STILLINGS TO BE OPPOSED.

It seems that trouble is brewing for the new Government Printer, Charles S. Stillings. He will not take charge of the office until November 25. He has done nothing to indicate what his policy will be as to the "open shop."

When this question was raised about two years ago by the now famous Miller case, President Roosevelt laid down the "open shop" doctrine so plainly that it could not be mistaken. The case involved the right of the allied unions in the government printing office to discipline one of its members. Miller's appeal to the President was investigated carefully by George B. Cortelyou, then Secretary of the Department of Commerce and Labor, and the President issued his "open shop" order, under the terms of which the Government Printer is forbidden to permit the government printing office to be unionized.

What practical effect the President's order has had in making it easier for nonunion printers, pressmen, binders, &c., to get employment in the government printing office as a matter of surmise.

The belief is growing that a stiff fight will be made against Stillings' confirmation in the Senate. A quiet but determined movement is going on to enlist the active interest of the allied unions against Stillings' confirmation, and if persisted in probably will culminate in a hard fight in the Senate this winter. Platt, of New York, is chairman of the Senate committee on printing, his associates being Elkins, of West Virginia, and Gorman, of Maryland.

The House committee on printing also consists of three members—Charles B. Landis, of Indiana; J. B. Perkins, of New York, and Farish C. Tate, of Georgia. While the latter committee has no vote on the confirmation of the government printer's appointment, it can wield strong influence either way, because it largely controls all House legislation affecting the printing office.

A gentleman who discussed this matter with the President within the last few days said yesterday that President Boosevelt had decided upon the selection of Stillings only after he had satisfied himself that Stillings would prove satisfactory in every way, and that therefore the President would leave to his appointee the working out of the proper policy in the treatment of all classes of employes in the government printing office.

Monument to Confederate Dead.

An earnest effort will be made this winter to raise funds for a monument to the Confederate dead who rest in the National Cemetery at Arlington. A meeting will be held this month by a committee, consisting of representatives of the various Confederate memorial societies in Washington, at which plans will be made to raise the money needed for a fitting shaft to commemorate the valor of the soldiers of the Confederacy who are buried at Arlington. The Confederates are buried in one of the most beautiful portions of Arlington, and it has been the especial care of the Daughters of the Confederacy to look after their graves. It is expected to raise between fifteen and twenty thousand dollars for the monument that is to be placed in the Confederate section of the cemetery, and there has already been some tentative correspondence with various eminent sculptors of this country for designs. At the meeting to be held this month definite action will be taken as to the amount of money to be raised and a programme will be outlined for collecting the funds.

Herb W. Edwards Injured.

Herb W. Edwards, of Des Moines, Iowa, got a fall on an icy walk last winter, spraining his wrist and bruising his knees. "The next day," he says, "they were so sore and stiff I was afraid I would have to stay in bed, but I rubbed them well with Chamberlain's Pain Balm and after a few applications all soreness had disappeared. I feel that this bottle of Pain Balm saved me several days' time, to say nothing of the suffering." This liniment is for sale by Gibson & Timberman and W. F. Creighton & Co.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

TUESDAY EVENING, NOV. 14, 1905.

SPECULATORS were given a scare by high rates for call money in New York yesterday, and the stock market suffered in consequence. It was the first time in over three years that there had been anything like a panic in the money market, but it hit Wall street hard yesterday. Before the market closed the rate had gone to 25 per cent. Of course, stocks fell. Speculators carry securities on call loans, and when the rates go up they sell their securities and take up their loans. The result is a general selling, and, of course, downward prices. This operation in the stock market is all that is generally seen, but it is not all that happens. In spite of the best disposition on the part of banks to take care of their regular customers, high rates for money and a great restriction of loans are obviously injurious to general business, and the conditions cannot continue long without grave inconvenience and some losses. With a rational currency system, capable of responding to the exceptional requirements of business, money would not go to 20 per cent. even in the stock market.

A GENERAL investigation of the expenditures in the various departments of the government and in the Panama Canal Commission will prove one of the notable features of the coming session of Congress, according to members who have already reached Washington. They are discussing the advisability of urging the Speaker to revive the still extant but for some time quiescent committees on expenditures of the various departments, and to create a committee on expenditures of the Panama Canal Commission. Members who favor this policy argue that there are numerous matters in connection with the expenditures of the executive departments and commissions which should be investigated. Careful work by these committees, it is urged, would inevitably result in a large saving in all the departments of the government, would close many loopholes for extravagance, and doubtless point the way for legislation needed to legalize necessary expenditures not now within the purview of the law.

DR. F. W. GUNSAULUS, in announcing to the Central Church congregation in Chicago Sunday that Thanksgiving services are to be held at the Auditorium, took occasion to denounce the custom of playing football on the day of thanksgiving. He said:

"Let us combine the cross of Christ with the flag of our country in the celebration of this day in an old-fashioned way. I beseech you, each one of you, to be here and by your presence set up a protest against the spirit of commercialism and frivolity that is becoming too prevalent on this holiday. It may be some of you will stay away to attend the football game—that disgrace to the history of this day and the spirit of thanksgiving that is coming to be fought by the preceptors and faculties of our schools and colleges."

It may be safely predicted that the reverend gentleman's appeal will not be generally heeded, as the "old fashioned way" of observing Thanksgiving Day does not suit the present generation.

SENATOR KNOX, of Pennsylvania, will, is is said, largely manage President Roosevelt's fight in the Senate for railroad rate regulation. This fact became known in Washington yesterday and it carried with it definite knowledge that Senator Penrose's influence at the White House has disappeared entirely. Coming so closely on the heels of the overturn in Pennsylvania politics, this evidence of the President's trust in and reliance upon Senator Knox comes as a snub for Senator Penrose. It means that the latter is thoroughly discredited at the White House, and that in the future the President will look to Senator Knox for advice and guidance upon all matters of concern effecting Pennsylvania, just as he relies upon him in the rate fight in the Senate.

AN EL PASO dispatch to The New York Tribune announces the purchase by the Steel Trust of the noted iron mountain, Caro Del Mercado, near Durango, Mexico. The ore is almost 70 per cent. iron, and one of the richest deposits in the world. By this purchase the trust aims to further establish its hold on the trade by a practical monopoly of the raw material of the continent. Incidentally, says the Philadelphia Record, mills and furnaces will be built at some advantageous location in Mexico, with the double purpose of escaping the high duties on imported steel and securing control of the Mexican domestic trade.

PRESIDENT JOHN A. MCCALL, of the New York Life, announced from the witness stand at the insurance investigation in New York yesterday afternoon that he would personally repay his company $235,000 which he paid out of the company's treasury to "Judge" Andrew Hamilton, legislative agent, without rendering any account thereof, provided Hamilton himself did not refund the amount by December 15. This is just an instance of how these insurance magnates juggled with hundreds of thousands of money, using it as though it were their private money, although not a cent belonged to them.

From Washington.

(Correspondence of the Alexandria Gazette.]

Washington, D. C., Nov. 14.

The text of the President's forthcoming message, to be presented to Congress on December 5, has been completed and put in type and he is going over the proof sheets. The document will be somewhat longer than last year's, and will take up railway rates, the Panama canal and the insurance question among other topics. An important section deals with the subject of the Panama canal, impresses on Congress the necessity of immediate legislation which will make it possible for the Secretary of the Treasury to dispose of the $135,000,000 bond issue already authorized, and to remove all doubt as to the authority of the commission to begin at once the disbursement of the proceeds from such sale.

According to mail advices just received from the Philippines, there was a mysterious "Raffles" aboard the transport Logan which took the Alice Roosevelt party to China from Manila. Some $5,000 in currency and jewelry was stolen from the members of the party by the unknown imitator of Mr. Hornung's hero. It is said that Miss Schmidlapp, of Cincinnati, was the heaviest loser, the thief having secured from her a valuable diamond necklace. Miss Mabel Boardman, of Washington, lost several pieces of jewelry. Vice-Governor Ide, a diamond ring; Miss Ide, a brooch; Mrs. Captain Slocum, a diamond brooch and a diamond pin; while a number of officers were relieved of considerable sums of money. It is believed that the thief was one of the employes of the vessel who had access to the staterooms of the party. Manila newspapers, describing the affair, are of the opinion that the work was that of a professional who had obtained employment on the ship for just that purpose.

The government at Washington has taken steps to stand by one who stood by it through most trying circumstances, only to involve himself in the direst difficulties. It is the case of William M. Parker, keeper of the Killick lighthouse on Chincoteague bay, Va., and the question to be determined is to what government he owes first, allegiance the federal, or State. Some weeks ago Parker was summoned to join a posse to seek out an alleged murderer. To go on this task meant that he forsake the light. He concluded it was better to save lives than revenge them so he stole off to the lighthouse. A month later when he came ashore for his mail and provisions he was arrested for failing to join the posse. His trial will soon be heard and the Department of Commerce and Labor has requested the Department of Justice to defend him. This will be done.

Mail reports from the Philippines show how inadequately the devastation caused by the recent typhoon was described in the cabled reports last month. It is stated that at least 15 Americans, and 200 natives lost their lives, and that the damage to property will exceed $8,000,000 gold in the province of Albai alone. In the province of Sorsogon, the damage is placed at $2,000,000. In these two provinces, 80 per cent. of the dwellings, school-houses and warehouses was destroyed. As a result of the storm and the drought of the early summer, only 50 per cent of the usual receipts from crops will be obtained. In Sorsogon all municipal buildings and school-houses, with two exceptions, were destroyed. The government house, treasury and supervisor's buildings at the provincial capital were almost total wrecks. It will be eighteen months before a new crop of hemp will be available for the market, so that much destitution among the natives is inevitable. In Batangas and Cavite provinces and the island of Samar, the results of the government's police work the past year were practically obliterated. Owing to breaking up of the ladrone bands, the farmers had been able to cultivate their long neglected plantations. The typhoon almost wiped out the growing rice and sugar crops, and it will take another year for the loss to be recovered.

Time expired before the opponents to football, among the members of the National Association of Presidents of State Universities, could score even a meager victory in the convention here, which came to a close today. A resolution condemning the roughness of the game, its professionalism and the time required to play it, which should be given by the students to study, has been introduced, but laid on the table "until the programme should be finished" and when that moment came a motion to adjourn was made quickly and Dr. Thompson's football resolution was tucked away for a year. Richard H. Jesse, of the University of Missouri, was elected president of the association. The next meeting will probably be held at the University of California. President Roosevelt received the members and their wives at the White House at 2:30 p. m.

The reported solution of the French-Venezuelan difference by Castro's withdrawal of his note demanding the removal of Minister Taigny, and France's note demanding the withdrawal of Castro's note and an apology to the French representative is apparently not an immediate prospect, according to information obtained at the State Department today. This simple removal of discord might be obtained were the differences between the governments based solely on the Taigny matter, but the French-Venezuelan relations are, it is stated upon authority, far more deeply complicated, and fraught with angles that prevent an easy return to diplomatic intercourse between President Castro and Minister Taigny.

President Roosevelt received a call this morning from a delegation of railroad employes who are against his railroad rate legislation crusade. There were nineteen in the delegation, headed by W. M. Clark of the Order of Railroad Conductors. The other organizations represented were the Brotherhood of Locomotive Firemen, Brotherhood of Locomotive Engineers, Brotherhood of Railroad Trainmen and the Switchmen's National Association. If the freight rates of the railroads are reduced, they told the President, there will surely follow a reduction in the wages paid railroad employes. All the organizations they represent the delegates told the President, have declared emphatically against any reduction in rates. The President made the railroad men a little epoch in which he thanked them for calling upon him and promised that the administration would work for a bill fair both to the railroads and shippers.

A dispatch was received by the State Department today from Singapore, the text and author of which were not disclosed, to the effect that the boycott situation there has become most nervious, and resulted in a practical paralysis of American trade through the Chinese houses in the straits settlements. Singapore is under British control, and this government cannot request the authorities there to take coercive action with the Chinese merchants similar to that obtained in Canton and the other districts in the Chinese empire under control of the Peking government. The Chinese merchants therefore in Singapore have practically unhampered privileges in the way of doing what they like with American trade. American trade through Chinese channels in the Straits Settlements have in past years been a big item in the Oriental export account.

Just as the National Association of Presidents of State Universities was closing its tenth annual meeting at noon, the Association of American Agricultural Colleges and Experiment Stations opened its nineteenth annual convention at the same hotel, the Shoreham.

Minister Gummere will represent this country in the Moroccan conference called by France and Germany, which will be held probably this month or early in December, for a settlement of the troubled internal situation and the foreign relations of Morocco. While a condition precedent of Great Britain's entering the conference is that the country's foreign status be not disturbed, the conference will deal with important matters Minister Gummere may be supplied with special credentials, if such are deemed necessary.

Judge W. J. O'Brien, of the Orphans' Court of Baltimore, a lawyer, a former congressman and a well-known citizen, died yesterday morning at the Winona apartment-house, Baltimore, where he had resided for several years, aged 69 years. One of the saddest features of his death was the fact that Judge O'Brien had returned just four hours before to his loved ones from a twos month trip abroad. The end came quite peacefully.

Seven girls were injured and damage amounting to about $50,000 was caused by a fire which destroyed the five-story factory building at Leonard and Meserole streets, Brooklyn, yesterday. In the building were about 600 girls employed, and some of them were too panic-stricken to wait for the firemen to reach them and began jumping from the windows into the life-saving nets. Seven girls who missed the nets struck the ground and were seriously hurt.

While engaged in the celebration of mess at St. Rose's Catholic Church, at Bradenville, Pa., Sunday, Father Shea, the aged pastor, was attacked by John Ravonski and stabbed in the chest. Ravonski who was in an intoxicated condition was swearing and disputing with members of the congregation when he was approached by Janitor Sebola, who tried to quiet him, and failing, attempted to eject him. Father Shea came down from the altar to remonstrate with him, when he suddenly drew a stiletto and stabbed him in the breast, cutting across the heavy vestments, which caused the blade to glance aside and doubtless saved his life.

Seven year-old Elsie Jones, on returning from school to her home in South Scranton, Pa., yesterday, found her father and mother lying dead on the kitchen floor. The mother had been shot in both eyes and the father in the left temple. A .38 caliber revolver was clutched in the father's right hand. The shooting was doubtless done by the father, Frank Jones. He was a store keeper, aged 29 years. Four years ago he and his wife were separated, but they became reconciled soon afterwards and had been living together ever since, though not happily, according to the neighbors. Nothing is known as to what prompted the deed, but it is supposed to have been the outcome of one of the couple's numerous quarrels.

The grand jury in New York resumed their investigation of the alleged election frauds this morning.

Charles B. Lochhart, 22 years old, accused of attempted criminal assault upon Gertrude Brown, daughter of Mrs. M. C. Brown, was yesterday given a preliminary hearing in the Police Court in Richmond and sent on to the grand jury. Lockhart was accompanied into court by his young wife, who professes her belief in his innocence and will stand by him to the last. The mother of the girl told how the child had been taken from her by Lockhart, who professed to have a warrant for her arrest, saying that he was a nephew of Chief of Detectives Tomlinson.

The Fox Hunters.

The run of the Middlesex hounds yesterday lasted two and a half minutes, when they killed the first fox of the match, but under circumstances leading to protest and charges that the quarry was a bagged fox shaken out by someone as the hounds entered the field. The hounds met at Middleburg and a field of 56 followed them on their last trial. It was by far the most brilliant array of riders that has yet ridden in this match, as everyone believed that Mr. Higginson would make a desperate attempt to win out on the closing day's trial.

The pack were taken about a mile from the village and were trotting across an open field towards the cover on Bald Hill, when a loud shout from a man standing on a wall told that a fox had been viewed. Cotesworth immediately had his hounds on the line. Across a meadow divided by stone walls was the fox. Not over 20 yards separated the pack and their quarry. At the foot of a hill the leading hound rolled the fox over, and the latter was torn into a hundred pieces. A protest, however, followed. It was known in Middleburg that a red fox was purchased Sunday. The circumstances surrounding the "kill" were such that Mr. Higginson, followed by others, declared they wanted evidence taken regarding it. Evidence was produced at the meeting of the judges to show that a man named Hall purchased the fox Sunday. Hall upon being questioned, stated that the fox had broken loose, and that, although he was present when the kill took place, he had not thought it worth while to mention the matter.

The incident greatly embarrasssed Mr. Higginson, the master of the Middlesex hounds, who has been active in tracing the culprit. There is great indignation there over the occurrence, particularly in view of the fact that had it not been detected, an irreparable injustice would have been done.

The hounds were carried on to Bald Hill Woods, where another red fox was quickly gotten up, and a fine brush of seven minutes followed. Only 10 of the field followed straight, the others finding gaps. One drop jump of seven feet over a stone wall held up all but eight, while a wide granite fence four feet eight inches in height permitted only six to cross. The hounds hunted slowly for nearly an hour, when the fox was seen by Mr. Smalley, of Boston, feeling across the field. The hounds were laid on, but the reynard went to earth under a ledge of rocks near Goose Creek bridge, on the Ernest Smith farm.

No falls occurred during the day, but Miss Terry Dulany made a sensational jump over a wire fence that tied up all of those behind her.

[Special Dispatch to the Alexandria Gazette.]

Richmond, Va., Nov. 14.—Regina Money, 12 years old, of Newport News, who was attacked several days ago by a pointer dog and bitten on the nose and chin, has been brought to the Pasteur Institute in this city. The dog was killed after the attack and its heart examined. There were unmistakable evidences of hydrophobia. The child is in no immediate danger.

Threatened Strike.

Paris, Nov. 14.—The energetic action taken by M. Thomson, Minister of Marine, in announcing to the employes of the arsenals and dock yards who had threatened to inaugurate a general strike today that any workman who joined the strike will be stricken from the government pay-rolls, has created the greatest consternation among the laborers and may result in the calling off of the proposed strike. Instead of beginning the strike this morning the workmen decided to hold another meeting to consider the question of whether a strike under the circumstances will really be worth while. The agitators themselves, who have been responsible for working up the strike sentiment, realize the gravity of the situation, and are hesitating as to the course to be pursued. M. Escartefu, the socialistic mayor of Toulon, has advised the senators and deputies from that department that the strike will assume a political character, rendering a settlement almost impossible. In telegraphing to this effect the mayor hoped to make M. Thomson yield, out the latter has not been moved from his position.

Large bodies of troops are being held under arms at Brest, Cherbourg, Toulon, Lorient, and Rochfort, to be prepared for any emergency. The soldiers are under instructions, however, not to show themselves on the streets except in case of disturbances.

At Lorient the strike was only partially successful. Two thousand men went out, but of these more than three hundred have returned to their places. At Rochefort one thousand went out on strike while more than 2,000 remained at work. At Brest, a number returned to work this morning. Strikers standing in the passage ways threatened and cursed at the returning men, but a conflict was averted. At Cherbourg the strike is fairly general. This morning the striker made a demonstration in the Palace d'Armes. The red flag was hoisted during the singing of revolutionary songs.

Hyde on the Stand.

New York, Nov. 14.—James Hazen Hyde was before the legislative investigating committee this morning. Among other things he said that in 1900 he accepted a salary of $30,000 and this continued until 1902, when his salary was increased to $75,000. In 1903, the salary was increased to $100,000, and continued at that figure until he resigned. When his salary was first fixed at $30,000, he declared he was given that sum without asking for it, at the suggestion of the President and members of the executive committee who suggested that as he had worked two years for nothing, he should begin to draw a salary. In 1903, when his salary was increased he had been made chairman of the finance committee, which increased his duties. He insisted that in both cases the increases voted him in salary were made without suggestion from him, but at the solicitation of the members of the executive committee. Mr. Hughes quoted from Mr. Depew's testimony, in which the Senator said he could not recall whether former President Alexander or Mr. Hyde had asked an increase in salary, but that he believed it was Mr. Hyde, and that he wanted more than Mr. Alexander. The witness could not offer any explanation of this testimony on the part of Senator Depew. Mr. Hughes asked if Mr. Hyde would have been willing to continue his connection with the company at $75,000 if the increase to $100,000 had not been allowed. "Yes sir," was the answer, "because I do not think I could have gotten that amount anywhere else." A laugh went around the room, as the witness said this.

Snow in Richmond.

Richmond, Va., Nov. 14.—The first snow of the season commenced to fall here early this morning, and is still falling at 9:30 o'clock. Canvassing the New York Vote.

New York, Nov 14.—The Board of Aldermen of Manhattan county met at noon today and organized as the county board of canvassers to canvass the vote of Tuesday last.

Alderman Doull was elected chairman, Henry Burrill was appointed secretary, and after several committees on claims, protests and the count were appointed the board adjourned until tomorrow. Besides the Aldermen there was an army of counsel present. Mr. Hearst was represented by Clarence J. Shearn, Henry De Forrest Baldwin, Henry Yonge, Austen G. Fox and E. B. Whitney, while the Tammany interests were represented by Charles H. Knox and Peter J. Dooling.

A resolution providing that the contests in the various assembly districts should be canvassed together brought forth a protest from Henry Yonge, counsel for Hearst, as did a resolution providing that three members of the board should constitute a quorum to take the count. The protest against these two resolutions was referred to the committee on protests.

Richmond, N. Y., Nov. 14.—The county board of canvassers met here this morning to canvass the returns of the recent election. Alderman Collins presided and was assisted by Alderman Gillis and Shea. Lawyer Hardy was present to look after the interests of Mayor McClellan, and Lawyer William A. Shortt represented William R. Hearst and the municipal ownership league. A big crowd was present but up to 12:30 o'clock there were no unusual developments. Twelve of the forty-four districts had been canvassed in that time, but no discrepancies were found in the returns for the mayoralty candidates. There were 165 ballots returned as void or protested. Of these 62 were protested ballots, and had been counted and were so returned by the election inspectors. No move has yet been made to have the void ballots counted or to have a recount of the whole vote.

Verdict Set Aside.

Trenton, N. J., Nov. 14.—Among the decisions handed down in the Supreme Court yesterday, was one by Justice Reed setting aside the verdict of $3,000 obtained by Annie Oakley, the famous rifle shot, against the Hoboken Observer, for damages for printing a story sent out from Chicago to the effect that the woman was the victim of drugs, and had been sent to jail. Miss Oakley claimed that the publication of the story resulted in her illness, and consequent loss of earning power. The supreme court in its opinion lays down the rule that "In an action for libel or slander, damages cannot be assessed for physical sickness alleged to have been caused by the libel or slander." And in comment Judge Reed says: "In the present case the damages resulting from physical sickness which the jury was permitted to consider did not stop with a mere compensation for such physical pain and expenses for medical treatment. I am of the opinion that the damages for loss of earnings so resulting, as well as for physical distress are too remote." In dismissing the assessment for damages the court notes that the plaintiff admitted on trial absence of actual malice.

American Federation of Labor.

Alfonso Looking for a Wife.

Vienna, Nov. 14.—The purpose of King Alfonso's present tour of part of Europe and in visiting the various courts is not only to pay formal calls upon the elder monarchs, but is also to inspect the various princesses of royal blood who have been proposed to him as the possible future queen of Spain. After the Princess Patricia, of Connaught, rejected the young Spanish ruler, his political advisers limited his choice to one of nine Catholic princesses. Most of the Austrian candidates have been seen by the young king during his visit here and several opportunities were offered Alfonso of seeing the Duchess Marie-Antoinette while he was the guest of the Kaiser. After looking over all five of the Austrian archduchesses, Alfonso will go to Munich, where he will arrive on Thursday. He will here meet the three Bavarian princesses in the same public way that the other prospective brides have been displayed so far on his trip. Some of the newspapers have protested because of the public manner in which the inspection of the various proposed candidates for matrimonial honors has been conducted, declaring that the feelings of the royal maidens have been utterly sacrificed to political considerations. They have asked if it is not possible to arrange for the young king's marriage in a more delicate and more humane way, pointing out that only one can be selected, and that the other eight must remember their experiences in being shown off for inspection and then rejected with feelings of shame and humilation.

Store Wrecked by Robbers.

Philadelphia, Nov. 14—A loud explosion, accompanied by a crash of shattered glass and the cracking of timbers, awakened the residents of Fort Washington, a few minutes after two o'clock this morning. Through the cloud of smoke three men, each carrying bundles, were seen running down the road toward Ambler. Investigation revealed the fact that the Hoffnagel general store had been wrecked and that the safe in the Fort Washington postoffice, which is part of the general store, had been blown open. As far as can be ascertained the thieves secured about $450 in stamps and cash.

Masonic.

Masons from many sections of Virginia arrived in Richmond yesterday to unite with the Richmond lodges in the twenty-eighth semi-annual reunion of the bodies of the Ancient and Accepted Scottish Rite of Freemasons, which was begun last night. The reunion will not close until Thursday. Dinner was served in the banqueting hall of the Masonic Temple at 6 o'clock, after which the Lodge of Perfection conferred the degrees of that body from the fourth to the fourteenth.

The ceremonies for the entire week will be impressing.

Today dinner will be served in the Temple at six o'clock, after which the Chapter of Rose Croix will confer and communicate the degrees of that body (fifteenth degree-eighteenth degree).

On Wednesday, dinner will be served at six o'clock, after which the Council of Knights Kadosh will confer and communicate the degrees of that body (nineteenth degree-thirtieth degree).

On Thursday, Nov. 16, the Consistory will confer the thirty-first degree, commencing at four o'clock, and the thirty-second degree, commencing at eight o'clock p. m., after which the session will close with a supper and the enjoyment of social intercourse.

To confer all of the twenty-nine degrees (fourth degree-thirty-second degree) in full would require a week or more, working both during the day and evening, hence each body will confer in ample form the most striking and impressive degrees and communicate the rest.

The thirty-first and thirty-second degrees, composing the Consistory, will both be conferred in ample form with complete paraphernalia.

Mr. Edward Mallory, representing one of the largest furniture manufacturing firms in the country, is at the Raleigh, in Washington, for a few days. He is homeward bound from an extensive business trip through the South, and talks entertainingly of the wonderful changes that have taken place in that section within the last few years.

"I have pretty thoroughly covered the South Atlantic and Gulf States on this trip," said Mr. Mallory, "which is the first in seven years, and am astonished at the great progress made by the smaller towns and cities in that comparatively brief period. There is a general awakening of civic pride, and the former muddy thoroughfares, plank walks and unsanitary conditions have been superseded by well paved, sewered, and electrically lighted streets. In thought as well as deed were changed conditions no less discernible. Opinions on formerly tabooed political subjects were invited and discussed with a freedom, and, in view of the past's bitter experiences, a toleration that was surprising.

"In striking contrast to this progressive and enlightened spirit, however, is the wave of political prohibition agitation that seems to be sweeping over that section, and which, just at this time, is at its height in Virginia and the Carolinas. It is a singular feature of the craze that the object sought—the promotion of temperance—has had an opposite result, for there is more drunkenness under so-called prohibition than in the days of the open saloon. One cause of this is that beer, with its small percentage of alcohol, is excluded by reason of its bulk, which makes it unsafe to surreptitiously handle, while whisky, with a much larger percentage of alcohol, can be obtained anywhere without risk. With my exceptional opportunities for observation, I can safely assert that prohibition down there means nothing more nor less than promoting the consumption of whisky, and mostly bad whisky at that."

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Wedding.

St. Paul's Chapel was the scene of a pretty wedding at 11 o'clock this morning when Miss Elizabeth Louise Price, daughter of Capt. and Mrs. Mark L. Price, was united in marriage to Mr. James Smoot Smythe, a popular young business man of this city. Rev. P. P. Phillips, rector of St. Paul's, officiated. The bridal party entered the chapel promptly at 11 o'clock to the strains of the wedding march, the bride on the arm of her father who gave her away in marriage. The bridesmaids were Miss Ida Virginia Grigg and Miss Florence May Entwisle, cousins of the bride; the best man was Mr. Olin York Kyte, of Pennsylvania. The ushers were Messrs. C. Marion Price, J. Robert Zimmerman, jr., Clarence E. Emmert and Dr. Elvin C. Schneider. The bride wore a going away gown of dark blue broadcloth and hat to match and carried a shower bouquet of Bride's roses. The bridesmaids were attired in dark blue suits of cloth and silk and carried white chrysanthemums. The bride was the recipient of a number of handsome presents. Shortly after the ceremony Mr. and Mrs. Smythe left for a southern tour.

River Notes.

The schooner Hazel Dell, laden with 3,000 cubic feet of granite for the new District of Columbia building, which was reported lost at sea, was sighted forty miles down the Potomac river yesterday by the steamer Norfolk. The vessel had been missing since October 19, when it sailed from Blue Hill, Me. It was due to arrive at Washington on October 29, and when it did not appear, was given up as lost.

New Locomotives.

The Southern Railway Company, has placed an order for another lot of forty-five large locomotives to be delivered at an early date. The order was given to the Richmond shops of the American Locomotive Works, this being the third lot of engines to be delivered by the Richmond shops this year. The Southern is continuously making permanent improvements in and around its plant, which is already the largest in the South, and there are persistent rumors that there are yet much larger things in store. Among the new enterprises and improvements scheduled for Spencer is an enlargement of the shop buildings and foundry. New mechanics are being employed every day, and the pay roll is increasing month after month.

Mysterious Shooting.

A colored man named Benjamin Walker, aged 22 years, who is said to have come from Petersburg, was fatally shot near Spring Park last night. He was picked up by the crew of an electric railway train and carried to the depot in Washington, and later conveyed to the Emergency Hospital. Acting Lieutenant Roberts received a message this morning from the hospital announcing that Walker died at 6:14 o'clock. He had been shot through the back by another colored man, whom the police are endeavoring to identify. Several colored men had been seen in the locality by electric railway employees during the day, but, so far, no witnesses of the shooting have been found.

Cold Wave.

The wind changed to the northwest last night, causing a decided fall in the temperature. There were flurries of snow about five o'clock this morning, and at 7 o'clock the mercury in the thermometer stood at 34°. There were spits of snow in Baltimore before midnight last night. Snow warnings have been sent to West Virginia, and strong northwest winds are predicted for Virginia and other States.

Yesterday one year ago snow fell in this city and vicinity from 11 a. m. until 4 p. m.

Ex-Officer Allen, who was recently dismissed from the police force on the charge of drinking while on duty, has, through his attorneys, Messrs. Machen & Moncure, petitioned the Police Commissioners for a rehearing of his case. He claims he was present but a few moments at his trial and that he did not hear the testimony of the prosecution.

Struck by a Train.

A colored man named Paul Bayly was struck by a southbound electric train near Addison Heights early last night. He was placed on the train, brought to this city and conveyed to the Alexandria Hospital, where he received surgical attention. His injuries were not serious.

TELEGRAPHIC BREVITIES.

Judge Wentworth in Boston today decided to issue a warrant for the arrest of Thomas W. Lawson on a charge of criminal libel brought by C. W. Barron. The warrant is based upon the frenzied finance article in the October number of Everybody's Magazine.

Mrs. H. A. Foering, wife of the principal of the preparatory school of Lehigh University, was instantly killed and Bessie Miller, aged 12 years, a servant in the family was fatally hurt by the explosion of a water back at the Foering house, in West Bethlehem, Pa., today. The water in the kitchen range froze during the night, and when Mrs. Foering started a fire this morning the water back exploded.

The United cruiser Columbia, with Secretary of War Taft on board, arrived in Hampton Roads at 9 o'clock this morning. The Columbia came from Colon via Guantanamo, Cuba. The Secretary leaves early tonight on a steamer for Washington. Asked for his views in regard to the election in Ohio, the Secretary said the result in Hamilton county was just as he would have it.

Rev. Dr. Dunlop Moore, honorably retired, the oldest member of the Pittsburg, Pa., Presbytery, dropped to the floor immediately after the roll call, when the Presbytery convened at 10 o'clock this morning in the First Presbyterian Church in Pittsburg, and died within fifteen minutes.

Surprise was manifest in New York today when it was announced that James Hazen Hyde, former vice president of the Equitable Life Assurance Society, has sold his entire stable, including his collection of coaches, broughams, and carts.

The Mikado, of Japan, left Tokio today to pay his promised visit to the shrine of Ise, where he will make a report as to the successful termination of the war with Russia to the spirits of his ancestors.

An operation for appendicitis was performed successfully today upon Lord Salisbury, Lord of the Privy Seal, in the present British Cabinet.

Henry M. Faxon, the noted temperance advicate and radical reformer, died at 1:55 this morning in Quincy, Mass.

R. W. Whitehead, inventor of the Whitehead torpedo, died today at Berkshire, England.

Football, it is said, is to be abolished at Harvard this year.

The Methodists.

The closing session of the Virginia Conference of the M. E. Church South, which has been in session in Danville since last Wednesday, will probably be held tonight, at which time it is expected that the appointments will be announced by Bishop Galloway. At the session yesterday morning, Portsmouth was selected as the meeting place for next year. J. A. Bray, colored, addressed the conference in the interest of Payne and Lane Institute. He made a good impression and received a contribution of $250.

A report recommending non-concurrence in the proposition to memorialize the General Conference to consider the question of dividing the Virginia conference was adopted.

A resolution proposing to memorialize the General Conference in behalf of legislation on the divorce question was referred to the proper committee.

Rev. J. J. Lafferty, of Crozet, was, at his own request, placed on the superannuated list.

A missionary meeting of the conference was held last night and Bishop Galloway delivered an address. The remarks of the bishop were directed to the conditions existing in China and Japan. Secretary R. M. Chandler read the report of the missionary board of the conference.

Church Outrage Alleged.

Indignation among leading members of the Protestant Episcopal Church in Virginia has been aroused by alleged sacrilegious conduct at Christ Episcopal Church in Lancaster county, which is exposed in the last issue of the Southern Churchman. Its correspondent declares that while improvements were being made a party of young men, prominent in Lancaster county, held a mock communion service with whisky and crackers at the communion table and afterward conducted a mock baptismal service at the font.

A young woman, whose name is not given, was baptized, at the conclusion of which the font was smashed to atoms. The correspondent declares that the young woman went to Baltimore, where she committed suicide in a hotel. The affair has created a tremendous sensation, and it is reported that the church authorities may take up the matter and endeavor to prosecute the offenders.

Woman's Missionary Union.

Most of the 200 delegates to the Woman's Missionary Union, of Fredericksburg, left for their homes in different parts of the State yesterday, after one of the most successful annual meetings ever held by the organization. The following is a list of officers elected by the union for the ensuing year:

President, Mrs. Thomas B Bagby, of West Point; vice presidents, Mrs. J. L. Camp, Franklin; Mrs. C. S. Gardner, Richmond; corresponding secretary, Mrs. W. S. Leake, of Richmond; recording secretary, Miss F. Estelle Rudd, Belona; assistant recording secretary, Mrs. W. D. Duke, Richmond; treasurer, Mrs. J. E. Timberlake, Richmond; auditor, Mrs. William Ellyson, Richmond; superintendent of bands, Mrs G. D. Williams.

To Complete the Road.

George W. Carvalt, of New York; R. V. Rolands, and H. Chester Johnson, of Philadelphia, and others have purchased the uncompleted Richmond and Tidewater Railway, and propose to build a road in Virginia to be known as the Richmond, Rappahannock and Eastern. Mr. Rolands, who is president of the Rolands-Gillison Company, of Philadelphia, is to be the president of the new road. Mr. Johnson will act in the capacity of associate counsel. The capital stock is to be $1,250,000. It is stated that the entire issue of bonds will be placed with a leading trust company of Philadelphia, and that there is to be no watering of stock. Active work in the construction of the line will begin December 15, when a crew of 300 will be put to work on the first of the new year. It is said that the Chesapeake and Ohio Railway will co-operate with the new road, which will run for some miles over the Chesapeake and Ohio tracks.

Charged with Malpractice.

Dr. L. R. Chiles was not arraigned in the police court at Norfolk yesterday on the charge of criminal malpractice upon Miss Sarah Atkinson, but was committed to the jail hospital to await developments. Since his arrest, Dr. Chiles, who is sixty-eight years old, has completely collapsed and is now in a serious condition. James Franklin, accused of being concerned with the woman's condition, was admitted to bail yesterday, but will immediately be rearrested when the girl dies, her death being expected momentarily. Miss Atkinson, in an ante-mortem statement, made at the hospital before a magistrate and under oath, accused Franklin and declared that it was at the residence of Dr. Chiles that the operation was performed. Dr. Chiles declines to make a statement

Saved by Dynamite.

Sometimes, a flaming city is saved by dynamiting a space that the fire can't cross. Sometimes, a cough hangs on so long, you feel as if nothing but dynamite would cure it. Z. T. Gray, of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her, so she took Dr. King's New Discovery for Consumption, Coughs and Colds, which eased her cough, gave her sleep, and finally cured her." Strictly scientific cure for bronchitis and La Grippe. At E. S. Leadbeater & Sons' drug store, price 50c and $1.00; guaranteed. Trial bottle free.

TUESDAY EVENING, NOV. 14, 1905.

Cured by Sneezing.

Quite a singular occurence happened at the home of Burl Booth, who resides four miles south of Huntington, W. Va., on Fourpole, and Mr. Booth attributes it to divine power. His fourteenth months old child was ill with croup and its condition had become so serious that she had been given up and a dozen neighbors, men and women, had gathered to comfort the parents in their trying hour. While the child was gasping for its breath and appareatly passing away, the entire assemblage began to sneeze. The air in the room seemed charged with something that kept up the sneezing, and the child in the bed soon began to sneeze also, and when Dr. N. B. Ferguson arrived he found all hands sneezing and the infant so much better, on account of the sneezing, that he pronounced her out of danger. When an investigation was made as to the cause, the Booth family found that a lighted lamp, which had been placed on the mantel, had ignited a bunch of red peppers hanging on the wall above and the fumes filling the room soon brought results.

Terrific Race With Death.

"Death was fast approaching," writes Ralph F. Fernandez, of Tampa, Fla., describing his fearful race with death, "as a result of liver trouble and heart disease, which had robbed me of sleep and of all interest in life. I had tried many different doctors and several medicines, but got no benefit, until I began to use Electric Bitters. So wonderful was their effect, that in three days I felt like a new man, and today I am cured of all my troubles." Guaranteed at E. S. Leadbeater & Sons' drug store; price 50c.

When you want a pleasant physic try Chamberlain's Stomach and Liver Tablets. They are easy to take and produce no griping or no unpleasant effect. Sold by Gibson & Timberman and W. F. Creighton & Co.

FOR OVER SIXTY YEARS

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhœa. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

Nature Needs But Little.

Nature needs only a Little Early Riser now and then to keep the bowels clean, the liver active, and the system free from bile, headaches, constipation, etc The famous little pills "Early Risers" are pleasant in effect and perfect in action. They never gripe or sicken, but tone and strengthen the liver and kidneys. Sold by W. F. Creighton & Co., 401 King street.

But Few Are Free.

But few people are entirely free from indigestion at this season of the year. Kodol Dyspepsia Cure is not only the best remedy to use because it digests what you eat but because it also enables the digestive apparatus to assimilate and transform all foods into tissue-building blood. Kodol relieves sour stomach, heart burn, belching, and all forms of Indigestion. Sold by W. F. Creighton & Co., 401 King street.

A LAXATIVE Cough Syrup
THE NEW IDEA

THE ORIGINAL
The Red Clover Blossom and the Honey Bee on Every Bottle.
"A Cold or a Cough nearly always produces constipation—the water all runs to the eyes, nose and throat instead of passing out of the system through the liver and kidneys. For the want of moisture the bowels become dry and hard."
KENNEDY'S LAXATIVE HONEY AND TAR
Cures Colds by working them out of the system through a copious action of the bowels.
Cures Coughs by cleansing and strengthening the mucous membranes of the throat, chest, lungs and bronchial tubes.
For Croup, Whooping Cough, La Grippe, Influenza, Bronchitis, and all Coughs, Colds, Lung and Bronchial affections no remedy is equal to Kennedy's Laxative Honey and Tar. Children like it.
Put up in 25c, 50c and $1.00 bottles at the Laboratory of E. O. DeWitt & Co., Chicago, U. S. A.
